-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: **21** (see Figures 2 and 3). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 7, 12, and 17 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 7, 12, and 17 all recite method limitations that do not provide any structural limitations to the apparatus (claims 1 and 13) or product (claim 8) claims.

Allowable Subject Matter

3. Claims 1-6, 8-11, and 13-16 are allowed.

Art Unit: 1753

4. The following is a statement of reasons for the indication of allowable subject matter: it is neither anticipated nor obvious over the prior art of record to have a sample processing apparatus as claimed by Applicant in claim 1; or a hinged mount for holding a sample within a vacuum enclosure as claimed by Applicant in claim 8; or an integrated circuit processing apparatus as claimed by Applicant in claim 13.

5. US 6,783,596 B2 to Schaefer et al. (Schaefer) discloses a wafer handling device comprising a hinged structure, but there is no counterweight, no right angle between the wafer holder and other portions, and no rotation of the mount (Figure 1). US 2002/0005492 A1 to Hashikawa et al. (Hashikawa) discloses a wafer holder that does not have a hinged portion or a counterweight (Figure 9B). Modifying either Schaefer or Hashikawa to provide the missing limitations would require improper hindsight reasoning.
